

PETITE MOUSE

PETITE SIZE: ELITE PERFORMANCE

Don't sacrifice comfort and convenience for durability and cleanliness any longer! Introducing the *Petite Mouse*, the smaller-scale, five-button, optical mouse that provides unparalleled comfort for those with smaller hands or who work in confined areas, and still provides the best practice hygienic features people expect from all Man & Machine products. Not only does the Petite Mouse have a smaller footprint than a standard mouse, its ergonomic design simplifies the scroll function to ease strain on users' fingers. Because it's waterproof, it can be disinfected with alcohol, 10% bleach solutions or other cleaning fluids. If you're a dedicated scroll-mouse user who likes a smaller design and you're also concerned about infection control and hardware durability, try Man & Machine's Petite Mouse: ***Petite Size – Elite Performance!***

FEATURES

- Small-scale design
- Superior infection control features
- Waterproof for easy cleaning
- Built to last—limited lifetime warranty
- Three extra buttons for effortless scroll up, scroll down and scroll lock
- Silk-Touch Coating
