

# REALLY COOL

## DISINFECTABLE FULL SIZE KEYBOARD

Spill on it. Clean it. Wipe it or spray it. But don't worry about it. Because the water-resistant, contaminant-proof Really Cool Keyboard is built to withstand conditions other keyboards cannot. Its sealed and rigid surface makes it ideal for applications where moisture, germ control, and durability are a consideration. Especially since it can be easily cleaned with alcohol, 10% bleach solution and other potent disinfectants. Plus it's ergonomic and comfortable to use. Now that's Really Cool, isn't it?

## FEATURES

- Promotes health and hygiene
